Press Release
RESPONSABILITY AWARD

Italgraniti Group receives the Bureau Veritas Responsibility Award

The important accolade was presented on 11 April during Milan Design Week 2025 in recognition of the Group's responsible management of all aspects of its governance, reflecting a clear, shared strategic vision.

The Responsibility Award, assigned by Bureau Veritas, confirms the organisation's commitment to the responsible management of the three pillars of a business's accountability: **Quality, Environment and Corporate Social Responsibility**. The award is a fitting reflection of the company's strategy vision, enabling the organisation to communicate its values effectively and demonstrate its **commitment to excellence in all areas of its management**.

Italgraniti Group's long-standing process of transition to sustainable growth is centred on **innovation, environmental stewardship and people's wellbeing**. Today, the Group's commitment on these crucial issues is confirmed by internationally accredited certifications, including **ISO 9001** (quality management), **ISO 14001** (environmental protection and impact reduction) and **ISO 45001** (occupational health and safety). It also holds certification for the management of greenhouse gas emissions (**ISO 14064**), transparency in environmental management (**EMAS**) and gender quality (**UNI/Italian Presidential Decree 125:2022**).

The Responsibility Award was presented to Italgraniti Group at the Group's Milan showroom on 11 April. Group CEO Elisa Giacobazzi commented as follows: "This is not just a milestone; it also spurs us on to continue with even greater determination on our path to **a more sustainable future**. We believe that corporate responsibility is a key factor in generating shared value, improving our impact on society and helping to protect our planet. Therefore," she continued, "we'll continue to invest in innovation, sustainability and social responsibility, doubling down on our commitment to the ecological transition and greener and greener solutions." This strategy has also driven the Group to modify its articles of association and transform itself into a **Benefit Corporation**, a move confirmed by the award of **B Corp** certification in 2022.

So Italgraniti Group's trajectory has been an impressive one, confirmed by this major award presented by an organisation of great prestige: **Bureau Veritas** is a certifying body of worldwide fame and leads the way in inspection, compliance auditing and certification, with more than 300,000 certified businesses.

ITALGRANITI GROUP

Established in 1994, Italgraniti Group is among the leading Italian manufacturers of porcelain stoneware surfaces for use in architecture and interior design combining aesthetics, functionality and safety. This family-run company is now in its third generation of entrepreneurs and has been a B Corp certified Benefit company since 2022, authoritative confirmation that the company pursues a business model that combines innovation with economic, social and environmental sustainability across the board. Italgraniti Group provides designers and architects with some of the finest indoor and outdoor ceramic solutions, surfaces distinguished by innovation and versatility, with a multitude of applications in the world of architecture and interiors. The Group's collections are a prime example of Italian excellence, the result of impeccable research in the world of architecture and design and increasingly sustainable processes, and with some of the highest aesthetic and technical standards in the industry.
